Food Contact Certificate

Ultrasint® PA 11

According to information provided by our suppliers, we hereby declare that Ultrasint® PA 11 complies with the general legal requirements of Regulation (EU) No. 1935/2004 for food contact materials applicable at our stage of the supply chain and is manufactured in accordance with the requirements of Commission Regulation (EC) 2023/2006 of December 22, 2006 on good manufacturing practice for materials and articles intended to come into contact with food.

The composition of the product complies with Regulation (EU) No. 10/2011 and amendments. One or more substance(s) subject to restrictions are considered as proprietary information. These substances will be disclosed upon request after signature of a confidentiality agreement.

In addition, this product does not contain any colorant or pigment and no substance approved by Regulation (EC) No. 1333/2008 and amendments on food additives and/or by Regulation (EC) No 1334/2008 and amendments on flavourings.

The product is manufactured according to the Good Manufacturing Practices, as defined by the specific requirements of Article 3 of Framework Regulation (EC) No 1935/2004.
Particular measures have been implemented to confirm the compliance of the raw materials and to assure a good level of traceability of this product, in accordance with the requirements of Articles 16 and 17 of Framework Regulation (EC) No 1935/2004.

Studies have been carried out on the NIAS contained on a similar grade of the above-mentioned product However we would like to draw your attention that formation and identity of NIAS are closely linked to conditions of manufacturing process, number of manufacturing steps, applied test conditions, identity of the substances in the mixture.

It is the responsibility of the converter of food packaging that places the finished product on the market to ensure its compliance with Regulation (EC) No 1935/2004, especially Article 3 or with Regulation (EU) No 10/2011 as amended.

US FDA Food Packaging

Compliance with the US Federal Food, Drug and Cosmetic Act and all applicable food additive regulations requires that a product used as a food packaging material be evaluated based on the regulatory status of each individual substance that comprises the product for each application food type and condition of use.

This evaluation composes a review of all listings in Title 21 Code of Federal Regulations, GRAS approvals, prior sanction letter, Threshold of Regulation (TOR) exemptions, or effective Food Contact Substance Notification (FCN). Based on this review, the following applications of the subject product can be said to fully comply with the US Federal Food, Drug and Cosmetic Act and all applicable food additive regulations subject to the limitations provided herein.

It is the responsibility of our customers to determine if the following clearances or cross-references to the clearances are appropriate for the final intended use.

12 CFR Sec. 174.5
General provisions applicable to indirect food additives.

This statement is based on information provided by raw material suppliers and is not verified by analytical testing of the finished product.

F o r n o t i c e: The data indicated above correspond to the state-of-the-art and refer to the state of the laws at the date of issue. It is the responsibility of those to whom we supply our products to ensure that any other existing laws and legislation are observed.

Disclaimer:
The declaration is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission by AM Marketplcae GmbH.
The aforementioned data or information is based on our current knowledge and experience. In view of the many factors that may affect processing and application of our product, these data do not relieve processors from carrying out their own investigations and tests; neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions, drawings, photographs, data, proportions, weights etc. given herein may change without prior information and do not constitute the agreed contractual quality of the product. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed. This statement does not constitute the legally binding Safety Data Sheet.
